

QUALITY POLICY

Since its incorporation in 2009, the main aim of G03 MECANITZATS MALGRAT S.L. is to give its clients quality precision machined products and a global service. To do this, we work with processes assessing the risks and opportunities of the system to guarantee clients' satisfaction, based on continuous improvement.

The objective of the Quality policy of our company is to achieve clients' complete satisfaction, regarding their requirements and demands, constantly improving the quality of the work and attention to the requirements of the interested parties, as provided by the UNE-EN-ISO 9001: 2015 standard.

The Management Team is directly responsible for applying this Quality Policy, considering **the professional competence of personnel**, motivation and training for quality as priorities, as well as meeting the legal and statutory requirements and continually improving the effectiveness of the quality management system.

The selection of suppliers must guarantee that the supplied products meet the requirements and specifications that guarantee quality throughout the manufacturing processes.

Maintenance and continuous improvement of the equipment and tools will give rise to efficient processes that enable clients' deadlines to be met.

G03 MECANITZATS MALGRAT S.L applies **modernisation and adaptation to new technologies**, in production processes as well as in communication systems, to obtain better product quality.

G03 MECANITZATS MALGRAT S.L has and must maintain the necessary **flexibility and skills** to adapt to the needs of each client.

G03 MECANITZATS MALGRAT S.L is committed to **protecting the environment** by complying with recycling legislation.

The Management Team shall assess the **risks and opportunities**, creating a robust company based on continuous improvement of processes.
